Hi Mark,

Thank you for the message and let's touch base early next week (Monday around 10am?) and discuss more. Please let me know if that works for you.
Hope you are all safe and warm as it's been miserable here in DE today (and the past week) with this freezing temperature and blowing snow today.

Best,
Lam

Hi Lam,

Ex. 6 Personal Privacy (PP) I did not think about PFAS for over 2 weeks. I have been inundated with tire crumb rubber work leading up to the break so I have not gotten to the Nafion BP1 or BP2 yet. However, I have read the letter and agree with the suggested compounds BP3 and BP4. We should catch up and talk more in the coming weeks. We have we believe identified additional PFAS in the water samples we got this summer as well. I am here all next week expect Friday 1-12-18.

Mark

Subject: Happy New Year!

Hi Mark,

Happy New Year and I hope you had a wonderful holidays. Just curious to see if you have had a chance to work on the 'standards' we sent you last year and also if you have any questions regarding the letter we sent you late last year regarding the "BP3 & BP4". Perhaps we can touch base sometime next week. Please let me know.

Best Regards,
Lam
